- Paul Sears** - drums, percussion (track 5)
- Bill Bachman** - drums (track 8)

## T.A.P Bio:

T.A.P's debut album 'Paradigms' is the result of a collaboration between a handful of experienced musicians from diverse - and geographically dispersed - backgrounds.

From its beginnings in 2014, initial tracks were developed by Mike Jobborn (Head Joint) and Mark Cook (Herd Of Instinct), from which the idea of an album eventually grew.

After making a good start, 'life' - and COVID - meant putting the project on hold until 2022.

Returning to the work in progress, Suzi James (Fearful Symmetry), Gayle Ellett (Djam Karet), and Paul Sears (The Muffins plus many more) were invited to participate in this project.

The seven tracks of the album were completed by Spring 2023, at which point Bill Bachman (Herd Of Instinct ++) was recruited by Mark to create a remix for an HOI bonus track.

Mike Jobborn: *"...a wonderful group of progressive rock musicians joining together to create something unique. We hope to do a follow-up album in the future, possibly adding a few guest musicians along the way. Hope you all enjoy the album."*
